INFORMATION TO II & III YEAR, B.D. & M.DIV. STUDENTS OF AICS REGARDING RETURN TO THE HOSTEL

The Faculty members, in an emergency meeting after morning chapel service on 5th April, 2021, decided that all the II & III year, B.D. & M.DIV students of AICS, should come back to AICS on 9th April, 2021 (Friday).

All the students who are coming, must take covid-19 test on the day or a day before they come to AICS. Those who have negative test result will be able to enter the hostel.

As we have to follow government's guidelines (S.O.P), all the students from outside of Mizoram have to take Covid-19 test with RT-PCR/TrueNat (or equivalent), within 90 days before their arrival to AICS, and come with negative certificate.

The best thing is to take RAgt test on the day of arrival. However, College will not make arrangement this time. Each student is expected to make his/her own arrangement.

RAgt test can usually be done in Chawlhmun, Aizawl, before 2PM. LRM Hospital can do the test most of the time. There will also be other centers for RAgt test. Students can find a place of their own convenience.

All the students have to follow S.O.P. Guidelines prepared by the college as we need to be careful all the time. If any students unfortunately have positive result, arrangements will be made for their treatment.

Students should be more careful at least five days after reaching AICS. If someone unfortunately gets the virus, it is expected that the symptom will be felt within these days.

Those who will be travelling by public transports are advised to take utmost care not to get the virus from other passengers.
